Dear Fellow ATARI Owner:

We are happy to present our 1982-83 Catalog! Software for the 400/800 is really exploding. New programs are being announced every week, and better yet, quality has gone straight up!

More and more professional programmers are now familiar with the superb capabilities of our marvelous computers. They, too, are adding their talents. People like Bill Budge, famous for his work with Apple programs, are now working with ATARIs. The future for software is truly exciting!

You will find, in our Catalog, software from the leaders in third-party software for 400/800s, like Epyx, Broderbund, Adventure International, Datasoft, Avalon Hill, and many more.

Over 130 programs are listed here. These are the "best of the best". Many programs did not pass our tough evaluation standards. We know you will enjoy those that have.

Your satisfaction is guaranteed! Because, after your software product arrives, you have 30 full days in which to make a final decision. If you are less than satisfied — for whatever reason — simply return it for a prompt and courteous refund. We only ask that you return the program in new condition. Our guarantee takes the risk out of software purchasing!

You will like our prices. Lots of bargains, and quantity discounts, too!

Have fun, and . . . . .

Happy Computing,

A handwritten signature in black ink, appearing to read "J. David Soper", with a large, sweeping flourish underneath.

There are basically five different types of **Adventure** games available for the personal computer. Arnie Katz, writing in "Electronic Games describes them as follows:

### Text Adventures

These resemble short stories jointly written by the game's designer and each individual player. When the person or persons manipulating the on-screen characters inputs one- or two-word commands via the keyboard, the program responds with the appropriate description. Often but not always, text adventures present a series of puzzles that must be solved in a pre-determined order until the ultimate goal is finally achieved.

### Augmented Text Adventures

These are basically similar to the standard text adventures but add an extra dimension in the form of a few audio-visual enhancements.

### Illustrated Adventures

Actual pictures replace the long descriptions of what the on-screen hero sees. These generally take the form of multi-color line drawings in the high-resolution graphics mode. Movement is still accomplished by the input of commands through the keyboard, though the range of commands is frequently more restricted than with the text or graphic adventures.

### Action Adventures

Manual dexterity plays a much bigger role in this type of adventure than in any other, since the gamer maneuvers and fights by utilizing a joystick. There may or may not be a few additional one-letter commands such as "get," "shoot" and "examine," but the emphasis is on navigating your adventurer around what amounts to a schematic map of the game's setting.

### Graphics Adventures

The newest arrival on the computer adventure scene combines

elements of all four other types in varying proportion. The trend is toward giving the gamer the view of the hero's surroundings as he would actually see them rather than offering an omniscient overhead perspective.

Although a good case can be made for graphics adventures as the true state-of-the-art variety, all five approaches have their unique strengths. Many prefer text adventures because they can create more exciting pictures in their minds than on the screen. Cybersoft will use the Arnie Katz convention in describing **Adventure** games offered by us.

#### \$ ADVENTURELAND

(Adventure International)

24K

This is text adventure number one by the software genius, Scott Adams. Adventureland was written with the novice or first-time adventurer in mind. It incorporates lots of helps (but, it is not too simple). Many have found this a great way to get hooked on a traditional use for computers. Adventure games started on the really big computers. Scott Adams has written a whole family of them for microcomputers in general, and your ATARI in specifics. Why not begin here? Difficulty: Moderate.

### ★ DEADLINE

(Infocom)

32K

This is an important first in the world of computer adventures. Absolutely wonderful documentation. You receive a letter from Attorney Warren Coates concerning the death of his client, Mr. Marshall Robner. He asks you to conduct a complete investigation inasmuch as Mr. Robner planned to change his will. His estate is substantial. You are given a dossier which includes a photo showing where the body was discovered, a lab report, a report from the Coroner and transcripts from interviews with key participants. This is a two disk text adventure with you in the leading role of chief of detectives. You interrogate suspects, examine evidence and ultimately make accusations and arrests. If you have sufficient evidence you submit it to the grand jury. If you love text adventures or gripping detective thrillers, we know "Deadline" is for you. Disk only.

Cat. No. Ad 16 D

### ORIGINAL ADVENTURE

(Creative Computing)

32K

This is the parent of all computer adventure games. Originally played on only the really big main-frames, progress and ingenuity have now made it available to you and your ATARI. This is the one known as "Colossal Cave" because that is where you begin your adventure. You travel through more than 100 locations searching for treasure and hoping to avoid the dragon, dwarf and other distinctly unpleasant surprises. When you need a break from this one, you can save the game and start the next time from where you finished. Text adventure. Disk recommended.

Cat. No. Ad 17 C or D

**\$19.95-C, \$24.95-D**

### STAR WARRIOR

(Epyx)

32K

You play one of two scenarios, either attempt to assassinate the evil governor/dictator or create a diversion for the assassination attempt. We suggest you practice your skills on the diversion missions before you try to go for the bad guy. You select the kind of suit you want to use for your assignment. You can use the Dragon, Marauder or Ninja suits each with certain strengths and certain liabilities. Your enemy has a full range of firepower to throw at you. The complexity and challenge of this action adventure give you hours and hours of entertainment at high levels. Cassette or Disk. Cat. No. Ad 18 C or D

### ★ ALI BABA AND THE FORTY THIEVES

(Quality Software)

32K

This action adventure has all the flavor of a computer-based Dungeons and Dragons game. You, as Ali Baba, have to save a forever imperiled Princess Buddir Al-Bud-door. To accomplish your mission, you can build a collection of humans, elves, halflings and dwarves. Each has a name and specific abilities. For example, Huan is the largest of the elves. He is slower than others of his race, but wears light rithmil armor and is difficult to hit. His dagger is even more dangerous than his lethal rapier and he has excellent strength. No adventure is complete without monsters and "Ali Baba" is no exception with dragons, greasies, succubus, scorpions and more. Plan on spending hundreds of hours on this mission. It features easy game-saving and up to four can play. This game is unusual in that it can be played totally with joysticks. Disk only.

## SOFTPORN ADVENTURE

(On-line Systems)

40K

An "R" rated adventure. This augmented text adventure places you in the future. However, in this challenge, you are not so much looking for treasures of gold as you are treasures of the flesh. It seems your task is to find and seduce three girls in the 2020 AD city of Los Vagueness. In order to enhance your bankroll, you may have to enter a casino and play blackjack or slots. Good Luck and stay out of dark alleys. Game saving feature. Disk only.

## EMPIRE OF THE OVERMIND

(Avalon Hill)

40K

This is a fantasy adventure game that will keep you on the edge of your seat for hours and hours of fun and entertainment. You will find yourself lost in a strange world ruled by the mysterious part machine, part human monster, Overmind. It controls an army of evil creatures just waiting for you! The challenges are formidable. This text adventure is very much like living a sci-fi novel. Before you begin, be sure to read the marvelous "Rhyme of Overmind", a poem explaining history and clues you will need. Cassette or Disk.

## MAR TESORO

(Syncro)

24K

You use your financing to outfit your seaborne expedition with the necessary equipment to carry out one of man's most enduring dreams, the lure of sunken treasure. You will explore coral reefs and off the shores of a mysterious island. With luck, you will achieve fame and fortune. Without luck . . . well, sorry about that. Written expressly for ATARI 400/800s, it is a graphic adventure and uses joysticks. Cassette or Disk.

Cat. No. Ad 24 C or D

**\$16.95-C, \$21.95-D**

## CRYPTS OF TERROR

(Inhome Software)

16K

An action adventure. You begin with three men and are to search for the "Magic Ring of Power", return it to Crypt One and learn your next keyword. Only it isn't quite that simple. You just use your joysticks as you wander through the 50 crypts (if you get that far). Graphically, this game is very well done. You have an overhead perspective on this ripping adventure. This game is very challenging. You might find the gun to help you, if only you can find bullets. Collect treasure along the way because for 5 coins the tree of life will rejuvenate you. Cassette or Disk.

### ★ TEMPLE OF APSHAI

(Epyx)

32K

This is the first of the "Dunjonquest" family of action adventures. The Apple version won the prestigious Charles Roberts Award for the best computer game of 1980. Now an equally compelling version is available for ATARI. "Temple" is computerized dungeons and dragons. High resolution graphics depict the walls and characters of the Temple's rooms. You watch as the 20 different monsters attack and your special character gains treasure. The treasure is essential to your survival. Each character gains experience points as you progress and is a complex combination of strength, constitution, dexterity, intelligence and ego. This game is an intermediate level action adventure. Cassette or Disk.

## GHOST HUNTER

(Arcade PLUS)

16K

This is one of the excellent maze-chases offered by Cybersoft. "Ghost Hunter" presents 51 different versions of this famous chase game. The premise is simple. You are a world famous ghost hunter and have been hired to free the mansion on Huckleberry Hill from the four ghosts now haunting the place. The select button allows you to select from 16 different floor plans. "R" (#17) is a random selection with the computer selecting a different maze each time you clear the screen.

You can also play head-to-head, two-player or solo. The two player options also permit handicapping. This is the most versatile of all the maze games. You will enjoy the wild way in which the ghosts return to their pen after you have grabbed them. Cassette or Disk.

Cat. No. MZ 2 C or D

**\$29.95-C, \$34.95-D**

## JAWBREAKER

(On-Line Systems)

24K

One of the most incredible uses yet of ATARI's graphics, this maze chase takes you to a full-screen candy store. Someone has strewn the floor with "wifesaver" candies. As you eat them, you had best look out for the "bratty kids" who delight in knocking your teeth out. In fact, if they get you, you can watch your teeth fall to the floor. But, when you clean the screen it is time to brush your teeth. (After eating all that candy, you will really need it!!!) This is one of the computer challenges that takes hours to master and you enjoy every minute of it. Cassette or Disk.

## MOUSKATTACK

(On-Line Systems)

24K

John Harris, acclaimed author of "Jawbreaker" has done it again. You are Larry Bain, ace plumber for Rodent Rooter. Your job is to install pipe through the many levels of RAT ALLEY. You are armed with two cats and two mousetraps. The skillful use of these tools is absolutely essential if you are to have any hope of finishing your assignment. Oh, yes, don't forget to watch out for Super Rats, the big ones with an "S" on their chests. They eat cats whole. You, too, if they can. Want more competition? Find a partner and push Select. Now it is you, the rats, and your opponent all working away and all at once. It's a three-ring rat race! Cassette or Disk.

### CAPTIVITY

(Program Design)

24K

While not strictly a maze-chase, this maze game offers hours of challenge plus a different perspective on things. Instead of the traditional birdseye view of so many games, "Captivity" puts you right down in the maze looking down the aisles and walls as you attempt to move through the mind-buster to safety. You are given a quick look before the game begins to develop a route before you are put in the maze. (You can peek, too, but it costs you.) Ten different mazes with compass and 10 without will give you hours of challenge. You use a joystick to maneuver your alter-ego, a robot through the route. Cassette

## \$ STAR FLITE

(Adventure International)

24K

One of our more popular games, this version is by Lance Micklaus, deservedly famous for his marvelous talents in software design. Formerly titled "Star Trek 3.5" this is one of the all-time top software sellers for all computers. Now it is available for ATARI owners. Lots of color, lots of action as you hyper-warp through the quadrants in your search for Klingons. If you are a "trekkie", this one is for you.

## GIANT SLALOM

(Artworx)

16K

The warmest way I know to try your luck on the slopes. I don't think the Mahre brothers won their gold this way but it is lots of fun anyway. More than one can play as you hurtle down the slopes racing against the clock. We guarantee you will not break any bones, but look out for those closed gates. They can be murder. Cassette or Disk.

### MAZE OF DEATH

(Syncro)

16K

Another original for ATARI. This is a real-time maze complicated by the actions of a not-so-nice scientist. He has allowed a Cosmitron Device to become critical by removing the radiation control cubes. You had better find and replace the cubes before your favorite city (and you with it) goes bye-bye. Five levels of difficulty enhance the challenge. Colorful graphics. You'll need your joystick, too. Cassette or Disk.

Cat. No. GA 7 C or D **\$12.95-C, \$17.95-D**

### SHOOTING GALLERY

(Analog)

24K

Have you ever spent time at a Carnival spending your money at the shooting gallery trying to impress your lady friend? Here's a better way. The ATARI experts at Analog have found a way to fill your screen with owls, ducks, rabbits and pipes moving across the tube. With the calliope playing and the other sounds of the carnival, you half expect to find sawdust under your feet. Cassette or Disk.

Cat. No. GA 8 C or D **\$24.95-C, \$29.95-D**

### RACE IN SPACE

(Analog)

24K

A very different space game. Not only must you avoid the little asteroids swarming about you horizontally, you have to contend with comets whizzing by, negative universes and, of course, your opponent's missiles. This program has 128 variations! Totally written in machine language with full use of ATARI's unique player-missile graphics and sounds straight from outer space. Cassette or Disk.

Cat. No. GA 9 C or D **\$24.95-C, \$29.95-D**

### TRUCKER/ STREETS OF THE CITY

(Creative Computing)

40K

**A two-for-one special.** This is a full-blown 18 wheel simulation. If you have ever longed to join the world and challenges of cross-country trucking, try this one. You are in California looking for a haul. Maybe you want a perishable load of oranges? Pays more but greater risk. You must cope with flats, bad weather, road construction, fatigue and the eternal "smokies". The second simulation involves a very life-like problem for the city of Grand Rapids, Michigan. As the transportation manager you need to construct and maintain the streets and operate the city's bus company. You will need to be adept at planning, budgeting, finance and labor relations to make it all work smoothly. Certain to give you a deeper appreciation of the problems facing your own city. More importantly this is a very real and exciting simulation with hours of challenge ahead of you. Disk only.

Cat. No. GA 10 C **\$24.95**

### AIR TRAFFIC CONTROLLER

(Creative Computing)

16K

You are in charge of all air traffic in a 400 square mile area. While you are on duty, more than 20 aircraft will be entering your area. They will be at various altitudes and headings and are relying on you for help to and from airports, navigational aides and entry/exit fixes. You have all the tools you need to safely and efficiently handle the task, but do you have the nerves? Can you function under the unique pressures of tower? This is a fascinating simulation and one which will give you something to think about the next time you fly somewhere. We offer only the Advanced version of this classic. Cassette or Disk.

## ARCADE PRO FOOTBALL

(Arcade Plus)

24K

Specifically designed for ATARI 400/800s. Now gridiron excitement comes to your personal computer. Over 25 plays for the offense and defense. You control the full color animated teams on a 3 dimensional scrolling 100 yard field. Play your computer opponent or a human one. When you are the quarterback, you better not forget the 30 second clock. All the unpredictable qualities of the real thing including fumbles, interceptions and penalties. Four game variations offer a variety of challenges. Cassette or Disk.

Cat. No. GA 12 C or D **\$29.95-C, \$34.95-D**

## DARTS

(Creative Computing)

16K

This is Britain's most popular ATARI game from the famous Thorn/EMI. Walk in the pub, pop a top on a beer (cold is okay, gov) Grab some darts and have at it. You won't believe the incredible graphics. You can play solo or with another player. Ten different skill levels. Learn at home all about the game sweeping America's pubs. Cassette or Disk. Disk also features "Tilt".

Cat. No. GA 13 C or D **\$14.95-C, \$24.95-D**

## TILT

(Creative Computing)

16K

Another import from our ATARI friends in the British Isles. Do you remember those marvelous wooden tilt table games where you had to control both the East-West and North-South levels as you maneuvered the ball through the labyrinth. The ATARized version has nine skill levels and nine different speeds. Each competitor can use a different level so family contests are even more fun. Cassette or Disk. Disk combined with "Darts".

## ★ POOL 1.5

(Innovative Design)

48K

So many computer games are shoot-'em-up rapid fire challenges conducted at hyperwarp speed. Here is an excellent change of pace. Not that there isn't plenty of tension and challenge in this superb rendition of traditional pool, there is! About a minute after the game begins (and you can select from straight pool, rotation, nine-ball and eight ball) you forget it is a computer-generated game. You can utilize English on the cueball and change the speed of your shot. In fact, the only thing you can't do is chalk your cue stick. You can play "Pool 1.5" from the keyboard or with paddles. Up to four can play. Excellent documentation.

## NAME THAT SONG

(Quality Software)

16K

This program, by talented Jerry White, challenges you to recognize songs selected randomly. Depending on tape/disk and memory availability, the game may throw one of between 81 and 160 different tunes at you and your competition. Numbers count down on the screen as each note sounds. When you recognize it (or hope you do) push the joystick button. You can pick from multiple choices or be required to type in the correct answer. If you guess wrong, your opponent gets the points. You play until one reaches 25, 50 or 100 points. Up to four can play (two on joysticks, two on keyboard). Great party fun that all can enjoy. Another one of the games attractive to non-computer users. Cassette or Disk.

### \$ MATCH RACER

(Gebelli)

16K

This is a true test for your eye-hand coordination. You are in the driver seat of a nifty yellow racer. Beside you is your opponent in a green machine. You're off! But look out for the obstacles which range from oil-slicks, puddles, dividers, walls and more. An odometer at the bottom of the screen keeps track of the miles you have successfully travelled. The further you go, the faster you will be going. You are entitled to three wrecks and you are out. However, you add cars to wreck every 10 miles you travel.

### MOONBASE 10

(Beyond Software)

24K

This is a new dimension to arcade-like home computer programming. "Moonbase" requires both disk drive and cassette recorder and uses both. The program provides innumerable challenges as you attempt to go from one game level to the next. Whatever the challenge, the voice-activated program will help you. You need all the help you can get as you blast your way through alien minefields and defend your moonbase on the moons of Jupiter. Disk and Cassette required.

Cat. No. GA 19 D **\$29.95**

### ★ CANYON CLIMBER

(Datasoft)

16K

You find yourself at the bottom of the Grand Canyon trying to scale the toughest wall. In this ladder chase, you must face three different challenges before you reach the top. Smart donkeys must be jumped, arrows avoided and birds dropping rocks and worse make this a fascinating challenge. Definitely arcade quality! Cassette or Disk.

### BILLIARDS

(Creative Computing)

16K

Classic British billiards. Three balls and you score hitting both object balls with the cueball or by sinking a shot. Two player game or entertaining for one. It is not necessary to put on your tux to play "Billiards" on your ATARI. Try a little British fun. Cassette or Disk. Disk with "Pool" and "Snooker".

Cat. No. GA 22 C or D

**\$14.95-C, \$24.95-D**

## SNOOKER

(Creative Computing)

16K

Only for the advanced player, 26 balls crowd the table in this complicated game of strategy and skill. The idea is to Snooker your opponent. A snooker is when your ball is left in a situation where you have no legal shot. Available on Disk only with "Billiards" and "Pool".

## ★ RASER BLASTER

(BudgeCo)

32K

This is a truly special program for ATARI gamers. Bill Budge, the Apple master, has focused his formidable talents on the ATARI and translated the hugely successful "Raser Blaster" for our computer. This marvelous pinball simulation lacks only the ability to bang the machine from being real pinball. The game features all of the newer improvements of arcade pinball machines including ball-catching claws and more. The simulation features high-resolution graphics, animation and sound. Two levels of difficulty and uses two joysticks. You use the triggers on the joysticks to actuate the flippers. Up to four may play and you will wish you had a coin slot on your ATARI when your friends drop by and see this one. Even the computer-phobes will love "Raser Blaster". This is a highly recommended game. Disk only.

Cat. No. GA 23 D

### APPLE PANIC

(Broderbund Software)

48K

The geniuses at Broderbund have now released their first program for ATARIs. The extremely popular arcade-quality "Apple Panic" is now available. This is a ladder chase so familiar in arcade settings. You control a human player equipped with a shovel. He survives by digging holes in brick floors for the monsters to fall into. They get stuck in the hole and the player neatly(?) dispatches them for points. Several levels, each with a fascinating array of monsters and challenges. This is a highly playable game soon to be in most everyone's library of "show-off" programs you dazzle your friends with. Now is your chance to lay waste to Apples, right and left. Disk only.

### SPACE SHUTTLE SIMULATOR

(Swifty)

32K

This is a very realistic, real time, high resolution space flight simulator reflecting an actual space shuttle mission. The author has paid meticulous attention to detail. You are at the controls of the shuttle during all phases of the mission. The first in a series, you are in control during takeoff, orbit and re-entry. You have to see the landing phase to believe it. Final touchdown is a true representation of approach and landing using fine-scrolling presenting an actual runway. You will be assigned scores and skill levels as you learn to master the shuttle. Future releases will build on this knowledge. Disk only.

### ★ TRIVIA TREK

(Swifty)

32K

Another winner from the marvelous Jerry White! One or two players attempt to answer questions (500 of them) in 50 categories ranging from soap operas to James Bond. You can add your own Q and A's on a separate disk, if you wish. Critics love this one with lots of laughs. Jerry has designed this one with player-missile graphics, user or random selection of subjects and random positioning of correct answers in the 2000 multiple choice answers. Your ATARI is the life of the party with this one. A most painless way to learn more trivia than you would believe! Pure (and sometimes off-beat) fun with "Trivia Trek." Disk only.

## PILOT

(Artworx)

16K

"Pilot" puts you in the captain's seat of an aircraft as you try an approach and landing. (Truly the hardest part of flying!) Real-time graphics display shows your instrument readouts and the view ahead from your cockpit. Use two joysticks to control throttle and angle of attack. As you near the runway, it will take shape with accurate perspective according to your altitude and attack angle. When you think you are an "Ace", try the expert option. Cassette or Disk.  
Cat. No. GA 43 C or D    **\$16.95-C, \$20.95-D**

## BLOCKADE

(Artworx)

16K

Every games library needs a solid blockade program and this is one of the best! You direct a continuously moving line attempting to avoid walls, your opponent's line or your own trail. Three levels of play to suit your skill level. "Blockade" even includes a solitaire option for solo challenges. Cassette or Disk.  
Cat. No. GA 44 C or D    **\$14.95-C, \$18.95-D**

## FOREST FIRE

(Artworx)

24K

### ALPHA FIGHTER

(Artworx)

16K

Two games, one price! Two joystick games maneuvering starships and firing blasters. In "Alpha Fighter", you must try to prevent alien starships from getting past your starfighter. "Alpha Base" uses a mobile base firing missiles at enemy craft flying overhead. Recommended for the younger set. Cassette or Disk.

Cat. No. GA 47 C or D **\$14.95-C, \$18.95-D**

### HAZARD RUN

(Artworx)

16K

The sheriff has spotted you and you must make the treacherous run through Crooked Canyon past Brian's Pond to the jump at Hazard Creek and safety. You can even put the joystick controlled GEE LEE car up on two wheels to make it through some tight spots. A lead foot is not always the answer as you dodge trees, rocks and chickens(!) in this nerve-racking game. "Hazard" uses fully player-missile graphics, fine scrolling and re-defined characters to provide loads of fast action and fun. Cassette or Disk.

Cat. No. GA 48 C or D **\$27.95-C, \$31.95-D**

### RICOCHET

(Epyx)

16K

This is one of those games difficult to describe, difficult to master but easy to learn. In simplest terms, you have two launchers which you use to fire at your opponent's goal. Of course, there are obstacles in the way. But, if you bank shots off the obstacles you gain greater points. The longer the shot the greater the score. You have 6 defenders to place to protect your goal while you set yourself up for a scoring shot. The computer opponent gets tougher as you get better. One, two or three players can play. This introductory level game is fun from 8 to 80. Lots of action, color and sound add to the fun and strategic challenge. Cassette or Disk.

Cat. No. GA 49 C or D **\$19.95**

### CLOWNS AND BALLOONS

(Datasoft)

16K

In this arcade game, it is your job to clean up the circus tent. There's an obnoxious monkey who keeps blowing up balloons. Your job is to pop all the balloons and capture the monkey. With two friends and a trampoline, it looks easy! Well, wait until you try it! Cassette or Disk.

## ★ THRESHOLD

(On-Line)

40K

This is the best of the space invader games available for ATARI. The traditional waves of bad guys keep coming at your laser cannon, but with a difference. Each wave is different and each moves in its own way. You will find yourself naming the pesky devils (Puffballs, fish, seedpods, logos etc.) and no two do exactly the same thing. Some will swoop at you, some seem positively smart and others are like sitting ducks. They all have one thing in common, they are lethal. If you get trigger happy, your laser cannon overheats and you dodge death while it cools. If you are too cautious, you will run out of fuel. Clear five waves and "Mother" will come refuel you. Highly recommended. Disk only.

## MEGALEGS

(Megasoft)

16K

**Limited Supply.** This is one ATARI reportedly ran out of the market. Very much like "Centipede", but faster and with better graphics. I hope the guys that did this one are not too turned off by their ATARI experience to do more because they are real pros. Absolutely requires nimble trigger finger and agility as you try to avoid the waves of "megalegs" and other assorted creatures. **When these are sold there won't be any more** so act quickly if you are interested. Lots of color and sound. Disk only.

## BUG ATTACK

(Cavalier Computer)

24K

You may have seen this one on an Apple, now it is available for ATARI and many say it is even better. The bugs are on the loose and they are hungry. You must defend your cactus, flowers and giant clover from the attacking bugs. The bug army includes ants (easy), millipedes and medflies. Graphically very clever. Our kids log lots of hours on this one. Beware of the bugs, though. They are armed, would you believe, with very sharp knives which they enjoy dropping on your head. Cassette or Disk.

## GAMES

### PROTECTOR

(Synapse)

32K

This program is a real favorite of software reviewers. Incredibly detailed graphics and horizontal scrolling as you attempt to rescue the residents of town who are threatened by a volcano. In this game reminiscent of "Defender", you fly your attack-fighter as you move people and blast laser defenses. Your efforts are not helped by the alien's mother ship who uses its tractor beam to grab helpless people waiting for your help. After the ship gets them, they are dropped in the active volcano. Some kind of nice guys! A Mike Potter programming tour-de-force. Cassette or Disk.

Cat. No. GA 55 C or D

**\$29.95**

### \$ REAR GUARD

(Adventure International)

16K

This is one of the biggest sellers for Adventure International. You pilot a speeding space ship skimming the landscape of another planet. You must destroy enemy space ships as they attempt to blast past you and get your base. This is a high speed, graphically great arcade game with all the whistles and bells. Colorful and exciting. Several difficulty levels. Cassette or Disk.

**A Cybersoft Supersaver.**

Cat. No. GA 56 C or D

**\$15.95-C, \$19.95-D**

**Coming Soon!! A great new game from the imagination of Mark Gaponoff. Watch for "Survival of the Fittest". This one or two person version of the 'game of life' has everyone talking. Fast and challenging, this one will really test your strategic abilities. Lots of color and sounds. Soon to be released by Cybersoft. 16K and all machine language!**

### THE SHATTERED ALLIANCE

(Strategic Simulations)

48K

The Chronicles of Osgorth tell the story of a time in ancient history when the peace of Osgorth was shattered by the Zorgs. The Zorgs, nursing an old grievance, ambushed the Valkyries and Unicorns and very nearly destroyed them all. The surprise attack began a series of battles and wars in which you find yourself playing a part. "Alliance" is a full-blown battle game with you as the overall commander directing the units in your command against a human opponent or your ATARI. Superb graphics, wonderful documentation and great playing characteristics make this war simulation a must-have item for your software collection. Disk only.

### cybersoft Iron-Clad Guarantee

We fully guarantee the software we sell. If for any reason, you are not satisfied with your purchase, return the program within 30 days in its original packaging. We'll refund your money, no questions asked.

## COMPUMATH

(Eduware)

48K

Edu-ware is one of the leading producers of highest quality educational programs for microcomputers in general and ATARI in specifics. Edu-ware employs Instructional designers who work very closely with programmers to achieve software which will accomplish the educational goals so clearly stated. There are presently three Edu-ware programs on the market for ATARI. These include:

### COMPUMATH DECIMALS

Cat No. ED 1 C or D **\$29.95-C, \$39.95-D**

### COMPUMATH FRACTIONS

Cat No. ED 2 C or D **\$29.95-C, \$39.95-D**

### COMPU-READ

Cat. No. ED 3 C or D **\$29.95-C, \$39.95-D**

## HODGE PODGE

(Artworx)

40K

Newly released for ATARI!! This captivating program is a marvelous learning device for children from 18 months to 6 years. "Hodge Podge" consists of many cartoons, animation and songs which appear when any key on the computer is pushed. Let Mama ATARI do some babysitting for you with this program guaranteed to thrill your little ones. Disk Only.

Cat. No. ED 4 D **\$19.95**

## SAMMY THE SEA SERPENT

(Program Design)

16K

This is an Interactive Storybook for kids 4 to 7. Sammy is an imaginary sea creature who is lost and trying to find his way home. Your ATARI cassette provides the media as a professional actress tells the story to your young computerist. As the tale is being told, the child uses the joystick to help Sammy out of some tight spots. One side of the tape is the Interactive Storybook, the other has games for the child to play with Sammy. Cassette.

Cat. No. ED 5 C **\$16.95**

## \$ SPEED READ +

(Optimized Systems Software)

16K

Optimized is the software publisher that became famous with BASIC A + . They now present this educational offering, especially for your ATARI. "Speed Read + " is the first speed reading tutor designed for use on the personal computer. The program begins by training your eyes and mind to function at much higher levels of efficiency. With this teaching program, you go beyond words and learn to recognize phrases and columns.

Regular \$59.95. **Cybersoft Special \$42.50.**

Cat. No. ED 6 D

## ASTRO QUOTES

(PDI)

16K

This is one of our favorites. I love anagrams and this is really ATARI anagrams. You try to define words at the top of the screen. If you are right, the letters show up in a quote at the bottom of the screen. You are trying to decipher the quote in the fewest guesses. The better you get, the harder the game gets. High school and up. Cassette or Disk.

Cat. No. ED 7 C or D **\$16.95-C, \$23.95-D**

## PRESCHOOL IQ #1

(PDI)

8K

Your 3 to 6 year old is to decide whether pairs of figures are the same or different in the first part of the program. In part two, the child is asked to match the letter on the keyboard with the one on the television screen. Both programs teach important cognitive skills children need to do well in school. Cassette or Disk.

## EDUCATIONAL

## PRESCHOOL IQ #2

(PDI)

8K

The 3 to 6 year old computerist can make the face on the screen sing a happy song by moving the letter, number or word that appears at the top of the screen down to cover the same one at the bottom. There are three to pick from. This is a program children seem to really love and teaches letter, symbol, number and word discrimination. Cassette or Disk.  
Cat. No. ED 9C or D **\$16.95-C, \$23.95-D**

## MINICROSSWORD

(PDI)

48K

Your challenge is to fill in up to 18 words in each ATARI generated puzzle. You work from definitions you call up from the computer. Every time you guess wrong or give up on a definition just costs you points. More than 500 games in all. Great family fun. Disk recommended.  
Cat. No. ED 10C or D **\$16.95-C, \$23.95-D**

## KROSS'N QUOTES

(PDI)

16K

This is an adult braintwister. You must beat the clock by moving scrambled letters up to fill in the quotation at the top of the screen. Speed and verbal power are the keys to victory here. Of course, the easier the quote the shorter the time to complete it.  
Cat. No. Ed 11C or D **\$16.95-C, \$23.95-D**

## ASTRO WORD SEARCH

(PDI)

16K

Another wonderful mental challenge from the professionals at PDI. You had better know your geography before you tackle this one. You have played these games before in magazines. Now try it on the computer. Place names are hidden horizontally, backwards, vertically, or diagonally in the maze of letters on your screen. Advanced Junior high or adult. Cassette or Disk.  
Cat. No. ED 12C or D **\$16.95-C, \$23.95-D**

## SPELLING BUILDER

(PDI)

16K

Now you can master those very difficult to spell words that stump most of us. Is it "supersede" or "supercede," "combustable" or is it "ible?" Eight programs plus an audio cassette offering both a spelling drill and a method for approaching difficult words. Junior high and up. Cassette or Disk.

Cat. No. ED 13C or D **\$19.95-C, \$26.50-D**

## VOCABULARY #1

(PDI)

8K

This and the four programs which follow are highly effective basic skill builders specifically to help students and adults prepare for IQ, SAT and other widely used aptitude tests. They are self scoring which helps you measure progress as you go. "Vocabulary #1" is a beginning level course. Eleven programs, each including a set of graded vocabulary questions on synonyms and antonyms (the most common type of vocabulary questions on an IQ test.) The final lesson is a vocabulary test. Total of 400 questions, 2000 words in this course. Cassette or Disk.

Cat. No. ED 14C or D **\$16.95-C, \$23.95-D**

## VOCABULARY #2

(PDI)

8K

Another eleven programs similar to "Vocabulary #1" above but with a more advanced word list. Cassette or Disk.

## QUANTITATIVE COMPARISONS

(PDI)

8K

These eight programs were designed to help the student prepare for SAT-type math problems. Problems start with elementary concepts and cover most material that would appear in the test. A comprehensive guide is included. This program administers a final exam with explanations. Cassette or Disk.

Cat. No. ED 16 C or D    **\$16.95-C, \$23.95-D**

## NUMBER SERIES

(PDI)

8K

Here are eight programs that provide practice in a common type test problem . . . which two numbers come next in a series of given numbers. The first lesson teaches how to approach number series and how to analyze their patterns. Later lessons provide practice with increasingly difficult problems, giving clues if you have trouble. Final lesson tests abilities. Cassette or Disk.

Cat. No. ED 17 C or D    **\$16.95-C, \$23.95-D**

## ANALOGIES

(PDI)

8K

The course defines and describes the common types of analogies. The six programs teach a method for analyzing analogies and provides practice in handling all types of analogies. Final exam tests abilities. Cassette or Disk.

## UTILITIES

### DATALINK

(Swiftly)

24K

An ultra-sophisticated menu driven smart terminal communications package. Features full performance uploading and downloading in full duplex or simplex modes. It supports ASCII and ATASCII transmission. Printer Dump, Screen Dump and Disk Search options. You can use your ATARI keyboard as a remote terminal. Sends, receives and stores programs and data files. Save money on your connect charges by storing data on your disk for later retrieval. Disk, 850 Interface, and 300 Baud modem. Printer optional.

Cat. No. UT 1 D

**\$39.95**

### SOFTERM

(Datasoft)

48K

This communication utility allows you to send and receive any type of data from and to large and small computers. Will link you to the Source, CompuServe and Micronet. Special features include on-line editing, cash clock, stop watch, multi-tasking and many other features that make "Softerm" fun and easy to use. Disk and Modem.

Cat. No. UT 2

**\$49.95**

### PLAYER MISSILE EDITOR

(Artworx)

16K

Create your own fast action graphics game for your ATARI using "player-missile" graphics. By using player data stored as strings, players can be moved or changed (for animation) at machine language speed. All this is done with simple string variables. This program permits creation of up to 4 players on the screen, store them as string data and then immediately try them in the demo game included. How to use in your own application included in the documentation. Cassette or Disk.

Cat. No. UT 3 C or D

**\$29.95-C, \$33.95-D**

### SWIFTY UTILITIES

(Swiftly)

32K

This is a must for the serious programmer. These ten utilities will save you hours and hours of lost time. Use "NOREM" to save memory and increase speed by automatically removing REMarks. "VARILIST" automatically reads and lists to the screen all variables in your or other BASIC programs and it permits user input to define each variable. "PRINT825" will print your program lists. Not effected by control characters and print commands. Supports ATARI 825, Cent. 737 or Epson MX80 printers. "DOS.LST" is a particularly useful co-resident utility allowing you to call DOS 2.0 functions without losing the program in memory. Also includes all the helps in *Programing Aids I* and more. Disk only.

Cat. No. UT 4 D

**\$29.95**

### ★ MICROPainter

(Datasoft)

48K

A superlative graphics program. Works well for a wide variety of users from beginner to pro. Special features include inversing, rubber-band line draw, draw mode, diamond fill, undo command, joystick controlled easel for selecting pattern and colors, microscope mode, stop and retain a fill, 4 patterns, 16 colors and 8 intensities. Disk only.

Cat. No. UT 5 D

**\$34.95**

## PROGRAMMING AIDS I

(Swiftly)

16K-C, 24K-D

A useful package of four utility programs which increases programming efficiency and gives you an insight into how your ATARI works.

"Renumber" will automatically renumber BASIC programs with user defined starting line number and line step increments correctly reassigning GOTOS, GOSUBs and RETURNS and will even handle branching to variable labels. This package also includes "Program Decoder" which will provide a practical way to study internal program representation in tokenized and untokenized form and ATARI number conversion procedures. Excellent documentation. Cassette or Disk.

Cat. No. UT 6 C or D **\$14.95-C, \$19.95-D**

## TACH-MASTER

(Swiftly)

24K

If you are like many disk owners, you know ATARI disk drives are not too wonderful about maintaining proper speeds. Here is a very convenient way to monitor the speed. (If you correct the speed, you may void your disk warranty.) This highly accurate diagnostic utility uses 100 percent machine language routines, displays RPM readings, updated five times per second in digital and analog form on your screen. You can count on reliability to within one-quarter of a revolution per minute. Good users manual if you do want to fix the speed. It is simple to do and will solve many of those non-loading disk problems. Say goodbye to "ERROR 144" messages. Disk only.

Cat. No. UT 7 D **\$29.95**

## BASIC COMPILER

(Datasoft)

32K

Now you as an ATARI Basic programmer can create machine language object code easily. You can compile for speed or size of your final program. Includes a free run time package and a tutorial on how to program effectively with BASIC Compilers. Floating point is supplied. Disk only.

Cat. No. UT 8 D

**\$99.95**

## CHARACTER MAGIC

(Quality Software)

32K

Easy to create your own character sets and save them to disk or cassette with "Character Magic." "Magic" helps you use all the character types the ATARI is capable of producing including descending characters (8 X 10 dots) and two of the five character graphics *not* supported by the ATARI operating system. Documentation very educational and useful about display lists. Cassette or Disk.

Cat. No. UT 9 C or D

**\$29.95**

## DISK DETECTIVE

(Datasoft)

16K

Allows you to recover "zapped" or deleted programs by allowing access to actual sectors. Disk only.

Cat. No. UT 10 D

**\$29.95**

## GRAPHICS GENERATOR

(Datasoft)

32K

A graphics utility, with "Graphics Generator" you can choose from 128 colors to create any type of character images. Excellent for creating that space ship or alien for your own arcade games. Disk only.

Cat. No. UT 11 D

**\$24.95**

## \$ TEXT WIZARD

(Datasoft)

32K

ATARI owners have waited quite awhile for a high quality, full blown word processor for ATARIs. Text Wizard is now established as the premiere word processor. It is easier to use than most and sells for less but does just as much. The program uses the ATARI keyboard for commands and easy cursor movement. Justifies margins, prints columns, pagination, word search and substitutes and more! Disk and ATARI 825, Centronics or Epson printers. Disk only.

**Retails at \$99.95. Our price just \$89.50.**

Cat. No. BU 1 D

## ★ FILE MANAGER 800

(Synapse)

40K

This program is an absolute necessity for anyone using their ATARI for business purposes. File Manager is the leading data base management program now offered. You design the forms with which the data is entered. You can easily locate, by speedy sorts, the data you need. We use it daily at Cybersoft to maintain our customer records and other data. File Manager will generate lists to your criteria and, of course, mailing lists. This is truly a quality product. In fact, it is so good it has kept competitors out of the market. Disk only.

Cat. No. BU 2 D

**\$94.95**

## ★ \$ VISICALC

(Visicorp)

32K

VisiCalc has been the reason more people have purchased personal computers than any other! VisiCalc creates a very large accountants' ledger pad upon which you write with your ATARI. The fundamental difference is, if you change any figure or figures, the remaining figures are instantly adjusted.

**Thousands of copies sold for \$199.95.**

**Cybersoft price is just \$179.95.**

Cat. No. BU 3 D

## A C R

(High Country Micro)

32K

Finally, a quality automated cash register program for small retail or wholesale businesses. With 48K RAM, users can maintain up to 700 inventory items. This program will print your invoices, reduce inventories to reflect sales, tell you when to reorder, maintain daily sales/cash ledgers, cost average your inventories and more. You need a disk drive and printer (80 column necessary for invoices—40 column works as cash register receipt). The program is written in ATARI Basic so you can modify to meet any specific requirements. We use this system at Cybersoft, and find it works very well for us. Disk only.

Cat. No. BU 4 D

**\$69.95**

## BUDGETMASTER

(Sunrise Software)

32K

There are many home budget programs on the market and, in the early days, computer owners always used these programs to justify their computer purchase. We offer one of the best, and using this one is no mere rationalization. This is a professional program which, if followed, really could give you a wealth of information you probably haven't had. The program begins with 25 preselected categories. You may retitle any category to meet your own specific needs. You then select the amount to be budgeted in each category. You will easily see year to date comparisons as you progress. This is a carefully conceived program which will make it easy for you to set a plan of expenditures (don't forget software purchases), analyze your results and change as often and where you wish. Includes national expenditure percentages to help you. This is a good and serious program with lots of helps. Includes Checkmaster, a solid check balancing program. Disk only.

Cat. No. BU 5 D
